

**Abstracts of the
BIO 2016 Congress
Wrocław, Poland
September 13th–16th 2016**

Welcome Address

Dear Colleagues,

It is our great pleasure to Welcome you to the “Bio2016 – Expanding beyond the limits” Congress here in Wrocław. We believe that the joint meeting of Polish Biochemical Society and Polish Cell Biology Society bringing together a wide range of researchers from all fields of bioscience will cover the entire spectrum of molecular biosciences, with symposia from single molecule level to system biology. In addition, there will be sessions dedicated to issues of women in science, science & society, and science & business.

As the biggest meeting of biochemists/molecular biologists and cell biologists in Poland, the Congress will offer ample opportunities for fruitful discussions as well as possibilities to initiate new collaborations and joint projects among scientists from various countries all over the World.

We would like to extend a warm welcome to all our invited speakers and thank them for their time and participation at this Congress. We look forward to many scientific discussions throughout our meeting.

We would like to sincerely thank our sponsors for their support of this meeting. We encourage all participants to visit the trade stands and sponsors lectures/workshops.

As always, this Congress would not be possible without generous financial help from all participants.

We hope you will enjoy both the scientific and the social aspects of the Congress.

On behalf of the Scientific and Organizing Committees of the BIO 2016 Congress,

Darek Rakus
