Welcome Address

Dear Colleagues,

With great pleasure we welcome you to the BIO2023 “Different faces of biosciences” Congress in Szczecin. Polish Biochemical Society, the Polish Society for Cell Biology, the Polish Biophysical Society, the Polish Society for Laboratory Diagnostics, the Polish Cytometric Society and the Polish Mycological Society, American Society for Microbiology provide patronage upon our Congress.

Being aware of a huge diversity of scientific interests of academic community dealing with research in the field of BIO Sciences, we have done our best to include and cover wide spectrum of subjects and themes, and thereby offer a chance to present and discuss results of scientific work to all participants. We are convinced that the international character of the Congress and the participation of invited guests sharing their scientific expertise and wisdom with us will assure a high scientific level of this meeting.

We welcome outstanding scientists from all over the world who will provide three Plenary Keynote Lectures especially interesting for the bio-science community.

The 23 Thematic and Satellite Sessions of the Congress will contain state-of-the-art lectures given by invited speakers on the particular subjects. In most of the sessions you will meet also younger scientists giving short oral presentations describing their recent achievements. We cordially invite you to the FEBS National Lecture and satellite session “Women in Science” with the participation of invited outstanding women scientists. During Poster Sessions you will have an opportunity to present and to discuss over 100 posters.

We would like to sincerely thank our sponsors for their support. Almost 40 exhibitors will wait for you in their trade stands or workshops. We would like to thank University of Szczecin for hospitality.

Last but not least, we would like to thank all the participants for coming to Szczecin and enabling us the organization this event.

We hope that the upcoming Congress BIO2023 will be an excellent opportunity to exchange ideas and new scientific contacts, listen to the lectures, as well as to participate in modern workshops. We hope you will enjoy the exciting scientific program as well as the beautiful location and hospitality during the 5th Congress BIO in Szczecin.

Thank you for celebrating your visit to Szczecin with us!

On behalf of the Organizing and Scientific Committees of the BIO2023 Congress,

Barbara Dołęgowska

Contents

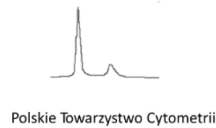

Parnas Lecture.....	1
FEBS National Lecture	2
Session 1. Flow cytometry – a powerful tool for Cytomics Research.....	5
organized by: Raif Yuecel and Jaroslaw Baran	
Session 2. New developments in flow cytometry for clinical diagnostic.....	9
organized by: Piotr Trzonkowski and Jaroslaw Baran	
Session 3. Biochemistry of microorganisms.....	11
organized by: Grzegorz Węgrzyn and Tomasz Jagielski	
Session 4. Metabolism and Omics.....	17
organized by: Mariusz Ratajczak and Magdalena Kucia	
Session 5. Molecular and cellular bioenergetics.....	19
organized by: Adam Szewczyk and Wiesława Jarmuszkiewicz	
Session 6. RNA structure, function and regulation	26
organized by: Andrzej Dziembowski	
Session 7. Oxidative stress in health and disease.....	34
organized by: Izabela Sadowska-Bartosz and Grzegorz Bartosz	
Session 8. Signaling pathways and cellular regulation.....	42
organized by: Tomasz Boczek	
Session 9. Clinical biochemistry.....	57
organized by: Andrzej Ciechanowicz and Leszek Kalinowski	
Session 10. Stem cells biochemistry.....	60
organized by: Bogusław Machaliński and Leonora Bużańska	
Session 11. New trends in medicine – diagnostics and therapy	64
organized by: Bogdan Solnica and Katarzyna Fischer	
Session 12. Ion transports across biological membranes.....	72
organized by: Jerzy Mozrzyk and Piotr Bednarczyk	
Session 13. Biophysics in life sciences.....	77
organized by: Beata Wielgus-Kutrowska and Piotr Bednarczyk	
Session 14. Biomaterials, cells and their interactions	82
organized by: Anna M. Osyczka and Grzegorz Tylko	
Session 15. Immunometabolism and extracellular vesicles in health and disease	87
organized by: Elżbieta Kołaczowska and Małgorzata Przybyło	
Session 16. Induced pluripotent stem cells and organoids for disease modelling.....	92
organized by: Józef Dulak and Agnieszka Łoboda	
Session 17. Biochemistry and biotechnology of fungi.....	95
organized by: Bożena Muszyńska and Grzegorz Janusz	
Session 18. Regulation of cell metabolism	97
organized by: Agnieszka Dobrzyń and Tomasz Wypych
